

LOC Questions and Clarifications Memorandum

To: Solicited Vendors for Letter of Configuration (LOC) Number 42870, dated November 2, 2020 for Mississippi State University (MSU)

From: David C. Johnson

Date: November 13, 2020

Subject: Responses to Questions Submitted and Clarifications to Specifications

Contact Name:

Contact Phone Number: 601-432-8041

Contact E-mail Address: Chris.Nix@its.ms.gov

LOC Number 42870 is hereby amended as follows:

- Item 6.2.2 from the LOC Questions and Clarifications Memorandum dated November 2, 2020 is being modified to read:**

“In addition to the specifications and requirements found in this LOC, the LOC package includes one document not directly attached to this LOC. This document is labeled as Attachment E, *42870 MSU Engineering AV Equipment and Cost Details.xlsx* and **Attachment F, 42870 MSU Engineering REVISED AV Drawings.pdf** ~~Attachment F, 42870 MSU Engineering AV Drawings.pdf~~, and are based on MSU requirements.

The following questions were submitted to ITS and are being presented as they were submitted, except to remove any reference to a specific vendor. This information should assist you in formulating your response.

Question 1: Section 6.3.5 mentions Crestron Ultra patch cables but they are not listed in Attachment E. Where would you like for me to put these cables and their associated costs?

Response: **Vendor shall provide the cost on Attachment E, *42870 MSU Engineering AV Equipment and Cost Details.xlsx*.**

Question 2: Section 6.5.8 states the proper lens for the projector should be supplied. What distance from the screen will the projectors be? Also, what are the specifications on the screen such as ratio and diagonal size?

Response: The projector shall be placed between 20 and 25 feet from the motorized screen. Refer to clarification number 1 above for additional information.

Question 3: Section 6.6.2 and 7.15 mentions plenum cable and additional drops for installation. I know you mentioned on site that there could be runs needed. If they are in fact needed, how many and to what distances do you expect? Where should that price be included?

Response: Vendor shall provide the cost of a turnkey AV system. Item 7.15 refers to unit pricing requested for additional drops if needed for a change order.

Question 4: Just for clarification purposes are we responsible for programming the DSP Audio or is MSU handling that as well?

Response: MSU will provide the programming for the DSP. The vendor is responsible for providing a sample program to prove functionality.

Question 5: Crestron Programming – We just need to verify control of projectors and TV's in our sample program?

Response: Vendor shall provide a sample program to prove functionality of all devices in the turnkey system.

LOC responses are due Monday, November 30, 2020, at 3:00 p.m. (Central Time).

If you have any questions concerning the information above or if we can be of further assistance, please contact Chris Nix at 601-432-8041 or via email at Chris.Nix@its.ms.gov.
